

# Hypromarine

## Leaders in the Design, Manufacture and Supply of Power Assisted Hydraulic Steering.

From 40ft upwards, leisure or commercial vessels, our systems are used by some of the worlds most demanding manufacturers, requiring ultimate performance, proven reliability and unrivalled compactness.

### Ultimate Performance

Highly responsive fingertip steering, nominally 3.5 turns lock to lock.

### Proven Reliability

Over 20 years supply of steering to the RNL and many leading European Boat builders.

### Unrivalled Compactness

Only 4 major components; Helm, Reservoir assembly, Servo power cylinder and Power pump.

**ASTEL** MYW868B/C

**Wireless Yacht Control System**

**When landing becomes a pleasure...**

The MYW868B/C is a RF microprocessor based yacht remote control system specially designed for yacht engines, bow thrusters and anchor windlass controlling. The high quality switches, keys and relays together with a special software protocol enable high reliability yacht controlling. The transmitter is built in an ergonomic and waterproof casing which enables simple management and bearing.
